LEONID YESAULOV

ABOUT ME

Hi there! I am a young and energetic AI & Infra Engineer, currently enrolled in Informatics Bachelors degree program with a minor in Mathematics at TUM.

I have already gained practical experience while leading a successful uni project, developing secure memory unit simulation in C/C++. My current work involves a homelab with tasks ranging from networking and security to automatisisation and deployment, gaining proficiency with server management, Docker, Python, gRPC and FastAPI. Furthermore I am eagerly exploring mathematical background of current machine learning.

EDUCATION

2024-2027

Informatics BSc. at Technical University of Munich

2023-2024

Preparatory College at the Universities of the Free State of Bavaria

COMPETENCIES

Frontend: Flutter/Dart, HTML, CSS, JS

Backend: Python (FastAPI), Java, C/C++, GoLang, gRPC

Misc: Git, Docker, Linux, Make, IT-Sec, CI/CD integrations

LANGUAGES

English - C1

German - C1

Russian - Native

Ukrainian - Native
